

ASIAN JOURNAL OF MATERIALS CHEMISTRY

Editor-in-Chief

PROF. WON-CHUN OH

Hanseo University, Seosan-si
Chungnam, Republic of Korea

Editorial Advisory Board

Prof. Seung-Kyu Park

Department of Chemical Engineering,
Hoseo University,
Asan 336-795, KOREA

Dr. Chong-Hun Jung

Decontamination & Decommissioning
Research Division
Korea Atomic Energy Research
Institute (KAERI)
1045 Daedeok-daero, Yuseong-gu,
Daejeon, KOREA

Prof. Ajayan Vinu

Australian Institute for Bioengineering and
Nanotechnology, The University of
Queensland, 75 Corner College and
Cooper Roads, Brisbane,
Queensland 4072, AUSTRALIA

Prof. Chen-Hao Wang

Director of Technology Transfer Center,
Research and Development Office,
Associate Professor, Department of
Materials Science and Engineering,
National Taiwan University of Science and
Technology, Taipei, TAIWAN

Prof. Feng-Jun Zhang

School of Mater. & Chem. Engin.,
Anhui Jianzhu University,
Hefei, Anhui, P.R. CHINA, 230022

Prof. Ho-Seob Kim

Depart. of Information Display,
Sun Moon University
100 Kansan-ri, Tangjeong-myeon,
Asan-city, Chungnam, 336-708 KOREA

Prof. John (Jung Kwon) Oh

Department of Chemistry and Biochemistry
Concordia University,
Montreal, Quebec, H4B 1R6, CANADA

Prof. Saksit Chanthai

Department of Chemistry, Faculty of Science,
Khon Kaen University,
Khon Kaen 40002, THAILAND

Aims & Scope:

Asian Journal of Material Chemistry is a newly launch peer-reviewed, open access journal that publishes original research articles as well as review articles in all areas of material chemistry. The Materials Chemistry specialization is an exciting, interdisciplinary program of research that involves research in topics central to the rapidly evolving field of chemical synthesis of materials, the molecular and physical basis of materials structure and properties, and the interplay between molecular-level structure, composition, and functional properties associated with new technologies. The Editors welcome manuscripts on superconductors, interface surface, thin films, magnetic, materials degradation and reliability, composite materials, semiconductors and optoelectronic materials, metallurgy, specialty polymers, fine ceramics, nano-materials.

Author benefits:

A journal run by scientists for the benefit of the community, with quality and relevance of the content assured.

- International visibility.
- Simple online submission system.
- Rigorous peer review.
- Receive referee feedback in just over a month.
- User-friendly technology, designed to make the work of editors, referees and authors easy and efficient.
- Fast-track publication.
- Electronic publication (print on demand) enables you to publish extensive colour figures and multimedia enhancements .
- Open access option.
- Editor chooses an article from each issue to be the 'Editor's choice', which is free to access, adding valuable exposure to the article.
- Mandate compliance and author copyright retention.

Asian Journal of Materials Chemistry presents research in a variety of formats:

Mini Reviews	Reviews
Full papers	Notes

Volume:	1
Frequency:	4 issues
Print ISSN:	Applied for
Online ISSN:	Applied for
Print Subscription (Full Volume):	USD 800=00
Print Subscription (One Issue):	USD 250=00

*Subscription Details and more information can be
found on the website of the journal:*
